It certainly is a "SUCCESS"—Just what its name implies. For a long
time we have experimented in hose—to produce just what will last longest
under the peculiar conditions found here. The results of our investiga-

good points and eliminate all the weak ones.

AMUSEMENTS

Big Empire Attraction.

Manager Overend of the Empire
Theater announced yesterday that he
had engaged the Crescent City Night-
ingales to appear for a brief season at
his popular playhouse. In doing this it
certainly looks as if the management
had made a ten-strike, for the accom-
plished young Hawaiian ladies can cer-
tainly deliver the goods when it comes
to singing and dancing. The company,
which is composed of Mrs. Miriam Kalo-
lena, Mrs. Lizzie Spalding, Miss Helen
Kaniwela, Miss Mary Keawe, and Miss
Liliha Loa, arrived recently from Hilo,
where they made a tremendous hit, to
give a concert and dance in the K. of
P. hall. This affair, by the way, will
come off on August 7. The young la-
dies, accompanied by a native orches-
tra, will render a number of popular
Hawaiian songs and will illustrate same
with graceful gestures and pleasing
movements. They also include in their
repertoire a medley consisting of the
choruses of a number of popular Amer-
ican songs.

On the War Path.

At the Park Theater tonight there
will be shown an exciting picture of
Western life called "On the Warpath,"
one dealing with Indians. When shown
in New York, it was received with tre-
mendous applause, and if a picture of
this character will please a New York
audience it must surely please Honolu-
lulu. There are cowboys, Indians and
soldiers on the scene at the same time
and a general mixup follows. The Mel-
notte sisters will sing "How I Love
You," and George Milne will render
"No One's Child." There will be a
number of other good pictures, including
several of the comic sort, which must
please grown folks as well as children.
Of course the feature film will hold the
attention of the audience because there
is so much in it that is interesting and
real.

HOW TO POISON RATS.

For poisoning rats in buildings and
yards occupied by poultry, the follow-
ing method is recommended: Two
wooden boxes should be used, one con-
siderably larger than the other, and
each having two or more holes in the
sides large enough to admit rats. The
poison bait should be placed on the
bottom and near the middle of the
larger box, and the smaller box should
then be inverted over it. Rats thus
have free access to the bait, but fowls
are excluded.
